## NOTIFICATIONS.

Port St. George, October 4, 1921

No. 512.—The following is published for general information :—

*Question and answer for the meeting of the Council of State  
 on the 16th September 1921.*

(No. 118 in the Supplementary List.)

*Question by the Hon'ble Mr. Zafar Ali Khan:—*

"(a) Are the Government aware of the discrimination among the Moslems and other backward classes of numbers that the Holy Places of Islam are being occupied and defiled by British troops?"

"(b) If so, what steps do they propose to take to counteract the discrimination of such falsehoods?"

*Answer by the Hon'ble Mr. Dwyer Esq.*

"(a) Yes, the Government are aware that the lying slander that the Holy Places of Islam are being occupied and defiled by British troops is still abroad, and the Moslems along with the Christians of the tragic consequences of this and similar unprovoked fabrications among an uneducated people. Its wicked falsity was demonstrated in Lord Chalmers's message to the Moslem people of India published in the Gazette Extraordinary of May 15th, 1920. Nothing has since occurred to call for any diminution of that solemn assurance. The relevant passage is long, but the gravity of the issue demands its reproduction in full. It runs as follows :—

"In the countries of Arabia, Iraq and Palestine are situated the Holy Places of Islam with which all Moslems are profoundly concerned. When the war began the Allies gave a solemn pledge that the Holy Places would remain inviolate. This pledge has been observed to the spirit and to the letter during the actual occupation by His Majesty's forces of the territories in which some of the Holy Places are situated and steps have been taken to ensure their strict security. The city of Jerusalem was not attacked as has been stated, but surrendered without violence offered or attempted, after it had been isolated in the course of operations against another army in the field. The fullest measures were straightway taken to preserve the sanctity of the Holy Places within it, and the city which is in itself so sacred to Christians as well as Moslems was entered by the victorious British General as foot. The Moslem shrines continue as before in the hands of their own Moslem custodians. In Mesopotamia the Holy Places of Kerbela and Najaf were never attacked and no acts of war were committed there by our troops. The unprovoked falsehoods of His Majesty's subjects were carefully acknowledged by the Intelligence authorities. The unprovoked occupation of Baghdad as of Jerusalem involved no attack on the Holy Places, but was an inevitable incident in the field operations of the war. The shrines in these three sacred places of Mesopotamia are now in the custody of a distinguished Moslem whose charge of them is an ample assurance that their sanctity will continue to be fully respected. The British forces have conducted no operations whatever in the Hedjaz, and any reports that Mecca or Medina have been entered by British troops are utterly without foundation. These places are entirely under Arab control."

"(b) The Honourable Member's question and this answer will be sent at once to each Local Government for widespread publication. In their desire for publicity Government are assured that they can rely on the available co-operation of the press."

Port St. George, October 5, 1921.

## THE COTTON CROP OF 1931—SECOND REPORT.

[On an average of the five years ending 1928-29 the area under cotton in the Madras Presidency has represented 11.5 per cent of the total area under cotton in India.]

The area sown with cotton up to the 1st October 1931 is estimated at 559,500 acres as against 538,460 acres on the corresponding date last year or a decrease of 21 per cent.

The decrease in the Coimbatore tract is due to the increase of the north-west monsoon and the fall in the price of cotton.

The fall in acreage is most marked in the Northern and Western area, only 50 per cent of the area of last year having been sown. The failure of the rains in August and September, which is the main sowing season in that tract, is the reason for this and as the sowing season is extending to a close there is certain to be a considerable decrease in the final area here this year.

Details by districts are given below:—

## FIRST REPORT OF THE PADDY CROP OF 1921-22.

[On an average of the five years ending 1916-20, the area under paddy in the Madras Presidency has represented some 14.5 per cent of the total area under paddy in British India.]

The area sown with paddy up to the end of September 1921 is estimated at 7,312,450 acres. This is 5 per cent above the estimate of 6,924,000 acres made on the corresponding date last year. The increase is fairly general, and is due to the favourable season. The greatest increase is in the central districts where the area increased 45 per cent more than last year owing to early and heavy rains. The decrease in the northern districts is due to the failure of the south-west monsoon and in the Deccan to the failure of the early rains. Figures by districts are given below:—

#### EDWARDAKE CROP OF 1911-12-SECOND REPORT.

(On an average of the five years ending 1919-20 the area under sugarcane in the Madras Presidency has averaged some 4.4 per cent of the total area under sugarcane in British India.)

The area planted with sugarcane up to the end of September 1921 is estimated at 119,000 acres as against an estimate of 99,399 acres made on the corresponding date last year, or an increase of about 20 per cent. The increase is greatest but is greatest in the central division and the south

where the area has increased by about 40 per cent. This is due to high prices for sugar at the planting season as well as the generally favourable season. Details by districts are given below.—

(Area in hundreds of acres, 10000 being omitted.)

## East-West Coast.

(Allegany Anchorage).

Vessels anchoring in the Allegany Roadstead should take up a berth Southward of the Pier with the flagstaff bearing about E.N.E., and as close as there is possible, in order to obtain a quick draft.

The tidal current, strong in shore, sets to the Southward, sometimes as strongly as two knots when a strong set breeze is blowing with a dead tide, making it very difficult for cargo boats to push themselves anchored in the Roads. Occasionally a strong set to the North is experienced, but it is usually very feeble and of a short duration. The prevailing winds are from the S.W.

The bottom shoals gradually, and the depth of water is which to anchor should be decided according to the windings of the tide.

A good trade breeze occasionally in the vicinity of the Pier, stretching along the coast for a few miles, brings perfectly smooth water, and exists on the date of this notice, onshore is therefore necessary in approaching the shore.

The mark-bank may shift to the Southward, or disappear altogether, at any time.

The Standard Barometer and Thermometer are read at 8 a.m., 10 a.m., 4 p.m., and 8 p.m., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The column of the barometer is twenty-two feet above the level of the sea, and the reading of the rain-gauge is two feet from the ground. The wind, rain and general weather registered are for the service civil day—from midnight to midnight.

The total quantity of rain collected since January 1st is 48.64 inches, the average due for the same period being 51.45 inches.

Under the provision of rule 42 of the Indian Legislative Rules, the Committee elected the Honorable K. S. Schuler the Chairman. He is the Chairman. He was, however, prevented from attending after the first meeting, and the Committee elected the Honorable Mr. H. Macdonald as Chairman for subsequent meetings.

Clause 1.—We propose that the coming into force of the Bill should be deferred till the first day of July 1913. Not only will all persons concerned have reasonable notice of the amendments which are being made in this law, but we understand also that from every point of view, the date proposed for introducing changes in the working of factories will be suitably convenient. We choose that the same clause was adopted when the present Act was passed.

Clause 2 (a).—We decided by a majority to retain this clause. We also discussed the possibility of introducing a "young persons" clause, but we considered that this was not desirable. Even if it was within our power, we think that the numerous amendments which would be necessary in the Bill should not be made until options have been arrived at.

Clause 3.—The amendment we have made in this clause is intended to provide that a certifying physician shall, if so required, give his reasons in writing for the revocation of a certificate, as well as for the refusal to grant one.

Clause 4a.—We have made an addition to the new clause introduced by this clause, which will enable the revocation of a child to be made by a registered practitioner authorized to that behalf by a certifying surgeon.

Clause 5a.—In view of the opinion expressed on this clause, which requires measures to be carried out within a period which was not to be more than seven days from the date of the notice, we have provided that the period to be fixed shall be at the discretion of the Inspector issuing the notice.

Clause 6.—It was put to us that in many factories it would be convenient to enable the period of rest to be taken on two occasions, and we have, therefore, provided that this should be done at the request of the employer concerned. Further, in view of the provision for an eleven hours' day, and for the purpose of making split shifts, we propose that the period of rest for children should be obligatory in the case of those working more than five and a half hours instead of only five hours.

Clause 7.—We were given to understand that the objection to section 22 of the Act, as it stands, is that it is not possible for a person to be employed for thirteen consecutive days without a holiday. The amendment which we now propose to make in this clause is intended to provide that the various objections which have been raised to the section, as it stands in the Bill. The Bill did not appear to take account of the various important religious holidays which do not necessarily fall on any particular day in the week.

Clause 15.—In section 23 we have provided for the prohibition of "loaves" for "cans" from the commencement of the Act, as it is not now intended to bring the Act into force before the first day of July 1913. We are in fact making no change in the situation, except that we are dispensing with the short temporary period during which children of 11 might be employed.

Clause 16.—The amendment proposed by the Bill in section 24 would prohibit the employment of an adult male in two factories on the same day, and enforce the Act for the Bill provides for any exemption in such cases. We think that there are many cases in which it would be reasonable to provide that a child or woman should be permitted to assist in work in different factories on the same day, and we propose, therefore, that power should be taken to make rules laying down the circumstances in which this may be permitted. We have, therefore, provided in separate clauses for the amendments of sections 25 and 26, and have re-numbered the chapter of the Bill down to clause 28.

Clause 16 (now clause 27).—We have limited the working day to eleven hours instead of twelve as proposed in the Bill.

Clause 17 (now clause 28).—The scheme of the Bill is extremely to bring all the exemptions together into one chapter. We have examined the matter at considerable length, particularly with reference to the clauses which it is proposed to make in the law. We are in particular that the exemptions provided for by sections 21 (1) (2) and 24 (2) of the Act have disappeared. We think that these should at least be a power to exempt, even if an absolute exemption is not maintained, and we think also that, in the case of urgent repairs done within the factory itself, it would be reasonable to give a power to exempt from the provisions which rest on periods of time and weekly holidays. We have, therefore, provided for this in a new subsection (3) to section 28 as amended. We think, however, that there should be some such, and we provide that rules may be made to allow the effect of working conditions to the exemption. We have also provided for an exemption from the provisions of section 21 in the case of factories where continuous production is necessary for technical reasons. We think that with these changes all the necessary exemptions, which are contained in the Schedule to the Act, will be suitably provided for in the Act as we propose to amend it.

Clause 20 (now clause 31).—We are of opinion that the period of seven days provided by the Bill within which copies of notices are to be sent to the Inspector is insufficient, and we propose to extend the period to not more than six days in section 31 of the Act as it stands.

Clause 21 and 22 (now clause 32 and 33).—We consider that the maximum fine proposed by the Bill are unnecessarily high, and we have recommended a fine of not more than "one thousand."

Clause 27.—We are not convinced of the necessity for raising the fine in this way, and we have, therefore, revised the clause. We have rejected a proposal to insert a penalty in section 28 of the Bill on parents and guardians of children employed in contravention of the provisions of the Act.

Clause 29.—We have added orders under the new sections 34 and 35 to those orders which are already in force, but we have provided that the day of execution contemplated by the Bill shall not apply in the case of orders issued under section 34.

In the new clauses 36 and 37 of the Bill, we have provided for certain consequential amendments which appear to have been overlooked. The necessary changes made in the Bill may be regarded as matters of pure drafting.

The Committee considered numerous proposals for further amendments of the law. It was suggested that a provision should be inserted relating to the provisions of a factory on the basis of the child to be employed. We accepted these proposals by a majority of five to four.

3. The Bill was published in the Gazette of India, dated 24 March 1921.

4. We think that the Bill has not been so stated as to require re-judgment, and we recommend that it be passed as now amended.

#### MINUTE OF DISSENT.

While signing the Report we reserve the right when the Bill comes before the Legislature to move amendments for the deletion of clauses 2 (c) and 23 of the Bill, and the retention of clauses 2 (j) and 31 of the existing Act, and also for the provision of definition of the "possessions" of a factory on the basis of the English Statute.

ALEX. E. MURRAY.  
VITHALDAS D. SHACKERNEY.  
M. N. JADHAV.

The 24th September 1923.

#### MINUTE OF DISSENT.

Clause 2 (c)—I wanted young persons clause to be introduced in the Bill. As hitherto it was not thought advisable to introduce such a vital alteration at this stage, the matter had to be dropped. I still think that the best solution of the difficulty is the creation of young persons clause.

I am of opinion that a unified graduate of all Indian Universities should be empowered to examine children.

I want section 46 of the present Act to be kept as it is, or, as an alternative, to have the definition of provisions on the basis of the English Statute.

LALUBHAI SAMALDAS.

The 28th September 1923.

#### MINUTE OF DISSENT.

I generally agree to the resolutions moved by my Colleagues in the Joint Committee subject to the reservations indicated in the minute.

In clause 13, I do not agree with the view of the majority that the period of statutory mid-day rest should be split up at all. I prefer that the workmen should have the full hour's rest in one undisturbed period. This would not prevent the employer and the employees agreeing to have additional period of rest at any time convenient to them.

In clause 14 (2) I propose to substitute the word five for six. As approved by the Committee the maximum number of hours for adults is fixed at seven and at the maximum number of hours per day for children seven and a half hours. I am inclined to think that my Colleagues failed to notice the change of twelve to eleven hours for adults which would have necessitated the fixing of the period for children at five and a half hours.

Regarding clause 15, in my opinion, there is no need for making a special provision for enabling employees to work in the different factories during the same day under special circumstances.

In clause 17, relating to section 17, I would substitute 44 for 45 hours. In the same clause relating to section 28, I would substitute 10 for eleven.

In regard to the grant of exemption under clause 18 I am of opinion that a proviso should be included that Local Governments should not give exemption regarding the weekly hours of work in such a way that the average weekly hours during the period to be fixed by the Local Government shall exceed the statutory weekly hours fixed in the Act.

I am also of opinion that Local Governments should not be empowered to give exemption to employees to get work done than for more than twelve hours in a day.

Similarly, I would also restrict the power of the Local Government to exempt from the statutory weekly rest in such a way that the employees should have consecutive holidays within a certain period.

In regards section 23 regarding the plantation factories, I am of opinion that a new law has been made out for retaining the section. I think it should be omitted.

M. N. JADHAV.

The 28th September 1923.

#### MINUTE OF DISSENT.

I agree generally with Mr. Jadhav. I am not inclined to agree with him that the period of rest should not be split up. This is only an enabling power, and I think that the workmen would prefer the arrangement to be one originally embodied in the Bill.

38. (1) Where it is proved to the satisfaction of the Local Government—  
(a) that any class of work in a factory is in the nature of temporary or supplementary work, which need necessarily be carried on outside the limits laid down for the general working of the factory; or  
(b) that the work of any class of workers is essentially intermittent; or  
(c) that there is in any class of factories any work which necessitates continuous production for technical reasons; or  
(d) that any class of factories supplies the public with articles of prime necessity which must be made or supplied every day; or  
(e) that in any class of factories the work performed, by the assignment of the tasks or by the nature, cannot be carried on except at stated seasons or at times dependent on the irregular action of natural forces.

the Local Government may, subject to the control of the Governor-General in Council, by notification in the local official Gazette, exempt on such conditions, if any, as it may impose—

in case (a) such class of work from all or any of the provisions of sections 31 and 33;

The following Bill was introduced in the Legislative Assembly on the 26th September 1921:—

No. 58 of 1921.

*A Bill to amend the Hindu Law of Inheritance in certain particulars, and to remove certain doubts: to be known as the Hindu Law of Inheritance (Amendment) Bill, 1921.*

WHEREAS it is expedient to amend the Hindu Law of Inheritance in certain particulars, and to remove certain doubts: it is hereby enacted as follows:—

1. (1) This Act may be called the Hindu Law of Inheritance (Amendment) Act, 1921: and

(2) It shall come into force on the \_\_\_\_\_ day of \_\_\_\_\_, 1921.

(3) It shall extend to the Provinces of Madras and Allahabad.

2. In this Act, "Hindu" means a person of the caste not governed by the Mohammedan Law.

3. (1) The estate of a Hindu, not held in coparcenary shall, in the absence of heirs down to the husband's grandson, be inherited in order by (1) the son's daughter, (2) the daughter's daughter, (3) sister, (4) sister's son, (5) step-mother, (6) step-mother's son, and (7) step-father; and only on failure of the above, by the father's mother or other heirs coming after her under the Mohammedan Law of Inheritance; provided that the female heirs succeeding as above shall take only such estate as a female heir would take under the ordinary Hindu Law.

(2) Nothing herein contained shall affect any special family or local custom.

#### STATEMENT OF OBJECTS AND REASONS.

It has been widely felt that the female heirs enumerated in the Bill should succeed to the estate of a deceased person before his distant blood. Whatever justification there may have been in the old days for the preference of Agnates to Cognates, having regard to the fact that the Mohammedan system is largely based on consanguinity, there is no ground in these days for perpetuating the old rule. There are authorities which argue that a wife should receive a share of the inheritance. These have been regarded as obsolete. It is not intended to give life to them. Attention is drawn to them only for the purpose of showing that, even in the case of the most orthodox, the older law did not deprive the woman named in the Bill. On the ground of consanguinity, there is no ground for not giving one's own grand daughter some place of inheritance. As a matter of fact most of the heirs enumerated in the Bill come before distant agnates in Bombay. I have not thought it necessary to follow to the full extent the course of decisions in Bombay, because there are some anomalies in them; but the Bill has been largely based on the general trend of the Bombay decisions and on public sentiment.

The 2nd June 1921.

Act XLV of 1915.

### STATEMENT OF OBJECTS AND REASONS

The object of the present Bill is sufficiently indicated by the preamble to the Bill. For several years past, there has been a growing feeling amongst the Mohammedan community throughout the country, that the numerous *Mahallats* which have been made or are being made daily by private and public spirited Mohammedans are being wasted or squandered in a manner which is wasteful and leads to the loss of the assets of the State. Instances of such waste of State property are unfortunately so many as to show that *Mahalli* management has now come to be regarded by the public as only a slow device to tie up property in order to defraud creditors and generally to evade the law under the cloak of a plausible *Mahalli* title. In some cases the *Mahallats* are persons who are clearly not fit to carry on the administration of the *Mahalli* and who, by their mismanagement, bring *Mahallats* into disrepute and to the detriment of the community. It is believed that the feeling is widespread that some steps should be taken to make the management and supervision of *Mahallats* more efficient and to ensure that the *Mahallats* themselves may be applied to the purposes for which they had been originally dedicated.

In some cases difficulties have arisen in dealing with whether any particular properties are really subject to *Mahalli* or not. There are numerous *Mahalli* proprietors all over the country who are not the public which the *Mahallats* are dealing with their own private property and dealing with it in any way they think fit, or necessary. It therefore seems that there should be a system of compulsory registration of *Mahallats* in order to make responsible officers not merely about the fact of the *Mahalli*, of which he is the *Mahalli*, but also the nature and extent and other incidents of the endowment. Further, even where a *Mahalli* is well known and a *Mahalli* is obviously thoroughly incompetent to carry on his duties, the public find a difficulty in instituting suits to remove him from his post by reason of the numerous procedure laid down in the Code of Civil Procedure. It is with a view to lighten the burden of such suits that a provision has been made in this Bill. Lastly, there appears to be a general feeling of opinion amongst the Mohammedans throughout the country that there should be some responsible officers, who may go about and see for himself whether the various *Mahalli* proprietors scattered throughout the country are being properly managed or not. It is not believed that Government should be called upon to bear the burden of appointing such an officer or his staff, and a provision has therefore been made in the Bill authorising the District Committee (to be appointed in pursuance of the provisions of the Bill) to levy a voluntary contribution from the *Mahallats* for the purpose of meeting the cost of selecting such an officer and his staff.

The subject matter in the more important clauses of the Bill simplify the objects and reasons of the Bill.

### Meaning of Clauses.

1. Clause 5.—This provision is similar to the provision for the maintenance of registers under the Land Registration Act, 1906 (Bengal Act VII of 1906) and other Acts.

2. Clause 6.—This provision is similar to the one for the compulsory registration and notation of causes of proprietors under the Land Registration Act, 1906.

3. Clause 7.—This provision is intended to compel *Mahallats* to keep regular accounts and to ensure compulsory publication of such accounts, as there is reason to believe that in numerous cases *Mahallats* do not keep any proper accounts at all. It is hoped that this system of a *Mahalli* to keep and publish accounts will be a wholesome check on waste and extravagance.

4. Clause 8.—This provision is meant to give the *Mahallats* full publicity, so that any member of the public may know how things are going on with regard to the various endowments.

5. Clause 9.—The idea as to the appointment of District Committees from the provinces is this: In the Bengal Mohammedan Endowments, Public Buildings and Charities Commission, 1910 (Bengal Regulation XIX of 1910), and it is proposed that a system of having District Committees will afford a wholesome check on the proper management of *Mahalli* in each district.

6. Clause 16 is inserted to simplify the procedure regarding the institution of suits for the recovery of undischarged *Mahallis* and for the appointment of suitable *Mahallis* wherever necessary.

7. Clause 21.—It is expected that in the case of every *Paig*, after all the directions given in the *Paig* have been carried out, there will always be a net balance in the hands of the *Mahall* which may be utilized for various public purposes. The Bill therefore gives power to the Collector to realize such amounts from the *Mahall* and place them at the disposal of the District Committee.

8. Clause 24.—The duties imposed on the Collector by the Bill are extremely heavy and arduous and it is not expected that the Collector will be able to attend to such duties concurrently or without detriment to his other legitimate duties. The Bill therefore gives power to the Collector to delegate his powers, so far as he may think necessary, to any person whom he thinks fit and proper to execute such powers. At every district headquarters there always happens to be responsible Mohammedan officers who may very properly be called upon to devote a portion of their time to duties which are obviously of such great importance to the best interests of the Mohammedan community.

9. Clause 25.—Gives power to the Collector to realize the dues from *Mahall* by the simple procedure laid down in the Bengal Public Demands Recovery Act, 1913 (Bengal Act III of 1913).

The 1st July 1915.

H. MONCRIEFF SMITH,  
Secretary to the Government of India.

The following Bill was introduced in the Legislative Assembly on the 23rd September 1931:—

No. 30 of 1931.

*A Bill further to amend the Code of Civil Procedure 1908.*

Whereas it is expedient further to amend the Code of Civil Procedure, 1908; It is hereby enacted as follows:—

Enact this, 1. This Act may be called the Code of Civil Procedure (Amendment) Act, 1931.

2. In sub-rule (2) of rule 23 of Order XXI in the First Schedule to the Code of Civil Procedure, 1908, the words "or for restitution of conjugal rights" shall be omitted.

3. For rule 23 of Order XXI in the said Schedule, the following shall be substituted, namely:—

"23. (2) In execution of a decree for the restitution of conjugal rights, where the decree-holder is the wife, the Court may order that, in the event of the decree not being obeyed within such period as may be fixed in this behalf, the judgment-debtor shall make to the decree-holder such periodical payments as may be just, and, if it thinks fit, require that the judgment-debtor shall, to the satisfaction, agree to the decree-holder such periodical payments.

When Court may order periodical payment in case of failure to restitution of conjugal rights.

(3) The Court may from time to time vary or modify any order made under sub-rule (2) for the periodical payment of money, either by altering the time of payment or by increasing or diminishing the amount, or may temporarily suspend the same as to the whole or any part of the money so ordered to be paid, and again revive the same, either wholly or in part as it may think just.

(4) Any money ordered to be paid under this rule may be recovered as though it were payable under a decree for the payment of money."

STATEMENT OF OBJECTS AND REASONS.

The mode of enforcing a decree for restitution of conjugal rights was at one time by physical delivery of the wife to the husband. Her imprisonment in case of disobedience was held to mitigate the evil attending her corporal delivery. But, as Mackay J. observed, "if you are to compel the woman to submit at all, then the best way of doing so by delivering her person to her husband is not more inhuman and infinitely more offensive than throwing her into prison." (12 W.R., 173, 180, 217.)

The mode of execution of a decree for the restitution of conjugal rights by imprisonment of the judgment-debtor in civil jail was abolished in England by the Matrimonial Causes Act, 1926 (47 & 48 Vict., C. 43), sections 3-5. Though the present Code allows of a duration to vary this mode of execution, it is apprehended that the abolition of imprisonment altogether would be more in keeping with the dignity of a woman and the maintenance of her self-respect.

The following Act of the Indian Legislature received the assent of the Governor General on the 5th October 1921, and is hereby promulgated for general information:—

ACT No XVIII of 1921.

*An Act to facilitate the enforcement in British India of Maintenance Orders made in other parts of His Majesty's Dominions and Protectorates and vice versa.*

WHEREAS it is expedient to facilitate the enforcement in British India of Maintenance Orders made in other parts of His Majesty's Dominions and Protectorates and vice versa; It is hereby enacted as follows:—

1. (1) This Act may be called the Maintenance Orders Enforcement Act, 1921.

(2) It extends to the whole of British India including the Scythian Parganas and British Baluchistan.

2. In this Act, unless there is anything repugnant in the subject or context,—

"Court of summary jurisdiction" means the Court of a Chief Presidency Magistrate or of a District Magistrate;

"dependants" means such persons as a person against whom a maintenance order is made is liable to maintain according to the law in force in the part of His Majesty's Dominions in which the maintenance order is made;

"maintenance order" means a decree or order, other than an order of affiliation, made by a Court in the exercise of civil or criminal jurisdiction for the periodical payment of sums of money towards the maintenance of the wife or other dependants of the person against whom the order is made;

"prescribed" means prescribed by rules made under this Act;

"proper authority" means the authority appointed by, or under the law of, a reciprocating territory to receive and transmit documents to which this Act applies; and

"reciprocating territory" means any part of His Majesty's Dominions outside British India in respect of which this Act for the time being applies.

3. (1) If the Governor General in Council is satisfied that provisions have been made by the Legislature of any part of His Majesty's Dominions for the enforcement within that part of maintenance

orders made by Courts in British India, the Governor General in Council may, by notification in the *Gazette of India*, declare that this Act applies in respect of that part of His Majesty's Dominions and thereupon it shall apply accordingly.

(2) The Governor General in Council may, by like notification, declare that this Act applies in respect of any British protectorate, or in respect of any State in India, and where such a declaration has been made, this Act shall apply as if such protectorate or State were a reciprocating territory.

4. (1) Where a maintenance order has, whether before or after the passing of this Act, been made against any person by any Court in any reciprocating territory, and a certified copy of the order has been transmitted by the proper authority of that territory to the Governor General, the Governor General in Council shall send

a copy of the order to the prescribed officer of a Court in British India for registration, and, on receipt thereof, the order shall be registered in the prescribed manner.

(2) The Court in which an order is to be so registered as aforesaid shall, if the Court by which the order was made was, in the opinion of the Governor General in Council, a Court of superior jurisdiction, be a High Court, and, if the Court was not, in his opinion, a Court of superior jurisdiction, be a Court of summary jurisdiction.

5. Where a Court in British India has, whether before or after the commencement of this Act, made a maintenance order against any person,

and it is proved to that Court that the person against whom the order was made is resident in a reciprocating territory, the Court shall send to the Governor General in Council, for transmission to the proper authority of that territory, a certified copy of the order.

6. (1) Where application is made to a court of summary jurisdiction in British India for a maintenance order against any person, and it is proved that that person is resident in a reciprocating territory, the court may, in the absence of that person, if after hearing the evidence it is satisfied of the justice of the application, make any such order as it might have made if that person had voluntarily appeared to attend the court; but in such case the order shall be provisional only and shall have no effect unless and until confirmed by a competent court in such territory.

(2) The evidence of every witness who is examined on any such application shall be reduced to writing, and such depositions shall be read over to, and signed by, him.

(3) Where such an order is made, the court shall send to the Governor General in Council for transmission to the proper authority of the reciprocating territory in which the person against whom the order is made is alleged to reside, the depositions so taken and a certified copy of the order together with a statement of the grounds on which the making of the order might have been opposed if the person against whom the order is made had been duly served with a summons and had appeared at the hearing and such information as the court possesses for facilitating the identification of that person and ascertaining his whereabouts.

(4) Where any such provisional order has come before a court in a reciprocating territory for confirmation, and the order has by that court been remitted to the court of summary jurisdiction which made the order for the purpose of taking further evidence, that court shall, after giving the prescribed notice, proceed to take the evidence in like manner and subject to the like conditions as the evidence in support of the original application.

(5) If it appears to the court hearing such evidence that the order ought not to have been made, the court may rescind the order, but in any other case the depositions shall be sent to the Governor General in Council and dealt with in like manner as the original depositions.

(6) The confirmation of an order made under this section shall not effect any power of a court of summary jurisdiction to vary or rescind that order:

Provided that, on the making of a varying or rescinding order, the court shall send a certified copy thereof to the Governor General in Council for transmission to the proper authority of the reciprocating territory in which the original order was confirmed, or to which it was sent for confirmation and that, in the case of an order varying the original order, the order shall not have any effect unless and until confirmed in like manner as the original order.

7. (1) Where a maintenance order has been made by a court in a reciprocating territory and the order is provisional only, and has no effect unless and until confirmed by a court of summary jurisdiction in British India, and a certified copy of the order, together with the depositions of the witnesses and a statement of the grounds on which the order might have been opposed, has been transmitted to the Governor General, and it appears to the Governor General in Council that the person against whom the order has been made is resident in British India, the Governor General in Council may send the said documents to the prescribed officer of a court of summary jurisdiction, with a requisition that a summons be issued calling upon the person to show cause why that order should not be confirmed, and, upon receipt of such documents and requisition, the court shall issue such a summons and cause it to be served upon such person.

(2) A summons issued under sub-section (1) shall for all purposes be deemed to be a summons issued by the court in the exercise of its original criminal jurisdiction.

(3) At the hearing it shall be open to the person to whom the summons was issued to raise any defence which he might have raised in the original proceedings; had he been a party thereto, but no other defence, and the certificate from the court which made the provisional order stating the grounds on which the making of the order might have been opposed if the person against whom the order was made had been a party to the proceedings shall be conclusive evidence that those grounds are grounds on which objection may be taken.

(4) If at the hearing the person sworn with the summons does not appear or, on appearing, fails to satisfy the Court that the order ought not to be confirmed, the Court may, notwithstanding any pecuniary limit imposed on its power by any law for the time being in force in British India, confirm the order either without modification or with such modifications as to the Court after hearing the evidence may seem just:

Provided that no sum shall be awarded as maintenance under this section, or shall be recoverable, at a rate exceeding that proposed in the provisional order.

(5) If the person to whom the summons was issued appears at the hearing and satisfies the Court that for the purpose of any defence it is necessary to read the case to the Court which made the provisional order for the taking of any further evidence the Court may for that purpose send a certified copy of the record to the Governor General in Council for transmission to that Court through the proper authority of the representing territory, and may adjourn the proceedings.

(6) Where a provisional order has been confirmed under this section, it may be varied or rescinded in like manner as if it had originally been made by the confirming Court, and where on an application for rescission or variation the Court is satisfied that it is necessary to read the case to the Court which made the provisional order for the purpose of taking any further evidence, the Court may for that purpose send a certified copy of the record to the Governor General in Council for transmission to that Court through the proper authority of the representing territory, and may adjourn the proceedings.

8. (1) Subject to the provisions of this Act, where an order has been registered under this Act in a High Court, the order shall, from the date of such registration, be of the same force and effect, and all proceedings may be taken thereon as if it had been an order originally obtained in the High Court in the exercise of its civil jurisdiction, or in such Civil Court subordinate to that High Court as may be named by the High Court in this behalf, and that Court shall have power to enforce the order accordingly.

(2) A Court of summary jurisdiction in which an order has been registered under this Act or by which an order has been confirmed under this Act, and the officers of such Court, shall have such powers and perform such duties, for the purpose of enforcing the order, as may be prescribed.

9. A Court in registering or confirming an order for maintenance in accordance with the provisions of this Act shall direct that the charges for the transmission to the Court, from which the order has been received or in which the provisional order has been made, as the case may be, of the sum awarded as maintenance shall be borne by the person against whom the order has been so made or confirmed, and shall be recovered from him in addition to the sum awarded as maintenance and in addition to, and in the same manner as, such other costs and charges as may be awarded or levied by the Court.

10. For the purposes of this Act, any document purporting to be signed by a judge or officer of a Court outside British India shall, until the contrary is proved, be deemed to have been so signed without proof of the signature or judicial or official character of the person appearing to have signed it, and the officer of a Court by whom a document is signed shall, until the contrary is proved, be deemed to have been the proper officer of the Court to sign the document.

11. Depositions taken in a Court in any representing territory may, for the purposes of this Act, be received in evidence in proceedings before Courts of summary jurisdiction under this Act.

12. The Governor General in Council may make rules for the purpose of carrying into effect the purposes of this Act, and in particular may make rules for the levy of the costs or charges for any thing done under this Act and for all matters which are directed or permitted to be prescribed.
